Build Your Dream PC

Gaming

Whether you want to play popular games, get eye-watering visuals, or hit peak FPS, our Prebuilts get you covered from mid-range to top-of-the-line GPUs and CPUs.

Shop Player One

Streaming

Ready to go live with your stream? We offer powerful CPUs, GPUs, and plenty capacity and performance so you can play and stream without taking a performance hit.

Shop Player Two

Creating

Multitask like a pro with maxed out performance parts in our newest cases, allowing you to tackle more applications and increase your workflow. Our gaming PCs go beyond gaming.

Shop Player Three

Boost Your Performance

GPU
The Graphics Processing Unit offers pure power to push performance to new heights in the toughest games.

CPU
The Central Processing Unit multitasks as well as increases performance in CPU-intensive games and helps avoid bottlenecks.

RAM
Random Access Memory enables you to run multiple programs at once—the more RAM you have, the better you can multi-task.

Testimonials

"NZXT BLD did a really good job with the build process and the customer service. Great attention to detail and getting it really clean for cable management on both the front and the rear chamber."

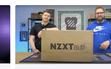
Nerd on a Budget

Full Review

"This build came together really nicely. the performance is exactly as I'd expect. I'm loving the new design of the NZXT Kraken Z63 here. A perfect example of how unrestricted airflow and affordable hardware can make a stylised PC with great performance for a modest cost."

Mr. Matt Lee

Full Review



"As PC business owners, we like to see companies that have quality customer service, good build quality and everything else. NZXT has always been on our shortlist for those."

Tracey Brox

Customer Reviews

★★★★★

Easy and Quick

Customer support was awesome, I had some questions about shipping my PC as a first timer and they answered everything. Custom build tool was easy to navigate and understand, and it only took two weeks between placing my order and receiving it. Everything was shipped safely, well packaged and arrived ready to go. Highly recommend.

★★★★★

Excellent gaming machine!

Everything was put together well as expected from NZXT. Cable management was unique-quiet, even airflow and Aesthetically-beautiful and clean. This being my second purchase from NZXT, I feel the quality has improved immensely since the first purchase. Simply outstanding.

Jordan B. 2024-03-07

★★★★★

My first desktop

This is my first desktop that I've owned, and I have to say that NZXT did an amazing job with the build. It's well-organized, aesthetically pleasing, and holds all the setup. I definitely recommend it if you're new to the desktop world like me.
